Washington, DC 20555

SUBJECT: COMANCHE PEAK STEAM ELECTRIC STATION (CPSES)
DOCKET NOS. 50-445 AND 50-446
SUPPLEMENT TO LICENSE AMENDMENT REQUEST 94-004
INCORPORATION OF THE NEW REQUIREMENTS OF 10 CFR PART 20

- REF: 1) TU Electric letter logged TXX-94045 from
William J. Cahill, Jr. to the NRC, dated February 14, 1994
- 2) NRC letter from T. J. Polich to C. L. Terry dated
April 27, 1995

Gentlemen:

Reference 1 submitted TU Electric's License Amendment Request (LAR) 94-004 which proposed revision of the CPSES Units 1 and 2 Technical Specifications (TS) to incorporate appropriate references to and provisions of the new 10 CFR Part 20 regulations (20.1001-20.2402). Subsequent reviews of this submittal determined that minor editorial or clarifying changes needed to be made to LAR 94-004; accordingly, attachment 2 of this letter provides the supplemental changes to LAR 94-004.

Via reference 2, the NRC issued Amendment No. 40 to Facility Operating License No. NPF-87 (CPSES Unit 1) and Amendment No. 26 to Facility Operating License No. NPF-89 (CPSES Unit 2) (Amendment 40/26). Upon receipt TU Electric noted minor editorial inconsistencies. Accordingly, Attachment 3 of this letter provides supplemental changes to correct the inconsistencies noted.

The supplemental changes provided in Attachments 2 and 3 are editorial or clarifying only and do not affect the Safety Evaluation or the Significant Hazards Consideration evaluation associated with LAR 94-004.
