Dear Dr. Seaborg:

Attached is a letter from Mr. Wayne M. Harris of the law firm of Keenan, Carroll, Harris, Creary & Beck, Rochester, New York, and my response thereto.

I would appreciate your responding directly to Mr. Harris and sending me a copy of your reply.

Sincerely,

EDMUND S. MUSKIE, U.S.S.  
 Chairman, Subcommittee  
 on Air and Water Pollution

Dear Mr. Harris:

I deeply regret the delay in responding to your letter of June 20 in regard to the nuclear power plant on Oyster Bay, Monroe County, New York. An unusual volume of mail has precluded an earlier reply.

I have forwarded your letter to the Atomic Energy Commission, requesting that they respond directly to you, and forwarding me a copy of their reply.

Sincerely,

EDMUND S. MUSKIE, U.S.S.  
Chairman, Subcommittee on  
Air and Water Pollution

RE: Oyster Creek No. 1

Dear Senator Muskie:

It is our understanding that the above said nuclear power plant has had a number of problems from supposedly bad welds and metal failure. It is our further understanding that tests were performed to see how the repairs might be made, but the corrodents were never identified.

Would you kindly advise me if the corrodents have now been identified. If they haven't, it doesn't seem to me that the plant should be operated.

I am further concerned that this plant will release radio active material to the atmosphere and liquid solids on a batch basis to Barnegut Bay.

You may wish to check this matter. I would appreciate any current information you may be able to obtain.

With best regards, I am,

Very truly yours,

RECEIVED
