SUBJECT: Arkansas Nuclear One - Unit 2
Docket No. 50-368
License No. NPF-6
Shift Technical Advisor Training Program

Gentlemen:

In our letter of December 31, 1980 (1-120-17/2-120-31), an outline of our training program for shift technical advisors was presented. In Part B, Item 1, we listed instrumentation and control systems that would be covered in a lecture series. Under Unit 2, the Megawatt Demand Setter was included. Recently, this was removed from the plant and we will no longer be providing lectures on its operation and function, as this is now unnecessary.

Very truly yours,

John R. Marshall
Manager, Licensing
