U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Crutchfield, Chief

SUBJECT: Oyster Creek Nuclear Generating Station
Docket No. 50-219
Purge and Vent Valves

As a result of our conversation on April 3, 1984 with Mr. Lombardo and Mr. Wright of your staff, please find attached two copies of the "Purge and Vent Valve Operability Qualification Analysis" report for the Oyster Creek Nuclear Generating Station. As requested, a separate copy is being sent to Mr. Rody Hodor of Brookhaven National Laboratories.

The attached report provides qualification information for the new qualified purge and vent valves that are to be installed during the Cycle 11 refueling outage. Should you have any other questions, please contact Mr. Michael Laggart of my staff at (609) 971-4643.

Very truly yours,

P. B. Fiedler
Vice President and Director
Oyster Creek
