PRAIRIE ISLAND NUCLEAR GENERATING PLANT
Docket Nos. 50-282 License Nos. DPR-42
50-306 DPR-60

Submission of Revision 10 Pages for Prairie Island Security Plan

Pursuant to 10 CFR 50.54(p) attached are six copies of REV 10 pages for the Prairie Island Security Plan. Instructions are provided for entering the revised pages in the previous complete Security Plan revision.

The purpose of this revision is to incorporate NRC Staff comments related to rotation of locks and classification of temporary vehicles contained in letters dated March 10, 1983 and July 7, 1983 and add management training requirements. We have concluded that these changes do not decrease the effectiveness of the Prairie Island Security Plan and may be made without prior NRC Staff approval.

This revision to the Prairie Island Security Plan contains Safeguards Information as identified by the Commission in 10 CFR Part 73. The Security Plan revisions should not be made available for inspection, and not be placed in the public document room.
