Senator Richard Stone  
Room 358, Russell Office Bldg.  
Washington, D.C. 20510

Dear Senator Stone:

I am writing to express my concern about the leaks in the Florida Power and Light Company's Turkey Point Nuclear Power Plant which were reported in the Sunday, March 14 edition of the Miami Herald. I am the mother of two small children; my husband and I take great care to see that they are well nourished and protected from harm insofar as it is possible for us to do so. It is most distressing to read of the apparent nonchalance on the part of FPL officials and the federal regulatory commission with regard to the leaks which were called "a minor nuisance" by FPL spokesman. The leaks may indeed be small but, in my opinion, there should be no leaks at all in a nuclear power plant. Our lives, those of our children and of generations to come are all at increased risk because of such "minor nuisances".

I urge you to investigate these reported leaks with vigor and dispatch. I look forward to hearing from you.

Sincerely,

Carol S. Lobron
