Mr. Dennis M. Crutchfield, Chief
Operating Reactors Branch #5
Division of Licensing
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr. Crutchfield:

Subject: Oyster Creek Nuclear Generating Station
Docket No. 50-219
Fire Protection - Exemption Withdrawal

By my letter of September 16, 1983, GPU Nuclear has requested schedule exemptions from the requirements of 10 CFR 50.48(c). One exemption request referenced the alternate shutdown system and our proposed schedule of having it complete and operational by the end of the Cycle 12 refueling outage. This proposed schedule would have exceeded the completion requirement of 10 CFR 50.48(c)(4) and therefore the need for the exemption request.

GPU Nuclear has determined that the alternate shutdown system can be installed and made operational by the end of the Cycle 11 outage. This schedule will meet the requirements of 10 CFR 50.48(c)(4) and are therefore by this letter withdrawing our schedule exemption request for the alternate shutdown system.

Very truly yours,

Peter B. Fiedler
Vice President and Director
Oyster Creek
