Re: Report of Abnormal Occurrence
Oyster Creek Nuclear Generating
Station, Unit No. 1
License DPR-16
Previous Correspondence Dated
October 14, 1969

Gentlemen:

Under "CAUSE AND RESULTS," Page 2 of the above referenced letter please make the following correction to the second sentence of the first paragraph.

"The internal filters, composed of a fine wire mesh of approximately thirty-two micron filtering capacity, etc. . . ."

Very truly yours,

George Kelcec
