

Ginna Station
February 20, 1974

Mr. James P. O'Rielly, Director
Region I
Directorate of Regulatory Operations
U. S. Atomic Energy Commission
631 Park Avenue
King of Prussia, Pennsylvania 19406

Dear Mr. O'Rielly:

In accordance with 10 CFR 20.403(b) (1), notice is hereby given of the exposure of four (4) individuals to radiation doses in excess of 5 rem in one quarter. These are film badge readings for the first quarter of 1974. Personnel involved were contracted for repair of the spent fuel pit. Cumulative dosimeter readings are all below 3 rem for the same period. Investigation of this occurrence is being conducted.

Very truly yours,

C. E. Platt
Plant Superintendent
