Reference: NRC Inspection and Enforcement Bulletin 83-07: Apparently  
Fraudulent Products Sold by Ray Miller, Inc., dated July 26, 1983.

Dear Mr. Martin:

In reference to IE Bulletin 83-07 which indicated the potential for  
sale of fraudulent products to nuclear industry companies, we have  
conducted an investigation to determine if the concern will be present  
at PVNGS.

The purchasing and receiving companies listed in the subject Bulletin  
and the applicable PVNGS suppliers were incorporated into the overall  
Supplier Quality Investigation Program. The investigation determined  
that no Ray Miller material has been supplied to PVNGS for use in any  
safety-related systems.

This completes the action requested by the reference letter.

Very truly yours,
