

Washington Public Power Supply System

3000 George Washington Way P.O. Box 968 Richland, Washington 99352-0968 (509)372-5000

Docket No. 50-460

G01-84-0061

February 28, 1984

Mr. J. B. Martin, Administrator
U.S. Nuclear Regulatory Commission
Region V
1450 Maria Lane, Suite 210
Walnut Creek, California 94596

Dear Mr. Martin:

Subject: NUCLEAR PROJECT NO. 1
RESPONSE TO IE BULLETIN 83-08

Reference: IE Bulletin 83-08, Electrical Circuit Breakers With An
Under Voltage Trip Feature in Use in Safety-Related
Applications Other Than the Reactor Trip System, dated
December 28, 1983.

The referenced bulletin requested that, within 90 days, we either provide projected dates for the implementation of the items enclosed with the reference, or we submit a negative declaration if we do not use circuit breakers with Under Voltage Trip Attachments (UVTA) in safety-related applications.

This is our negative declaration for WNP-1. For WNP-1, undervoltage protection is provided by undervoltage relays which energize the shunt trip coils; UVTA's are not used.

G. C. Sorensen, Manager
Regulatory Programs
