NUCLEAR PRODUCTION DEPARTMENT

U. S. Nuclear Regulatory Commission  
Office of Nuclear Reactor Regulation  
Washington, D. C. 20555

Attention: Mr. Harold R. Denton, Director

Dear Mr. Denton:

SUBJECT: Grand Gulf Nuclear Station  
Units 1 and 2  
Docket Nos. 50-416 and 50-417  
License No. NPF-13  
File: 0260/L-860.0  
Generic Letter 84-11, IGSCC in BWR  
Piping  
AECM-84/0254

This confirms the conversation held this date between Mr. M. D. Houston, NRC Project Manager for Grand Gulf Nuclear Station and Mr. J. G. Cesare, Manager of Nuclear Licensing, regarding Generic letter 84-11. The subject generic letter, dated April 19, 1984, pertains to inspections of BWR stainless steel piping and requires that any request for delay from its requirements be filed no later than May 4, 1984.

Mr. Cesare requested an additional week to evaluate the generic letter's requirements and determine if a request for delay is warranted. Mr. Houston considered a week extension acceptable.

Yours truly,

L. F. Dale  
Manager of Nuclear Services
