Docket No. 50-334, License No. DPR-66
Proposed Change Request No. 35 Revision 1
to Operating License

Gentlemen:

Enclosed are:

1. Three (3) originals and thirty-seven (37) copies of our Application for Amendment to our Operating License DPR-66 to incorporate a revision to our N-1 submittal to cover operation between P-7 and P-8 for two loop operation. Our original request for technical specification change for N-1 loop operation was submitted by letter dated October 27, 1978; therefore, please remove page 3/4 4-2 from that submittal and replace it with the revised page attached here.
2. Forty (40) copies of documents designated Attachments A and B which set forth the change in Technical Specifications and its safety evaluation.

Since this is a revision to a previous submittal for which a Class IV fee was remitted in accordance with 10 CFR 170.22, we have determined that no additional fee is required.

Very truly yours,

J. J. Carey
Vice President, Nuclear
