Docket No. 50-334

APPLICATION FOR AMENDMENT
TO OPERATING LICENSE

Pursuant to Section 50.90 of the regulations of the U. S. Nuclear Regulatory Commission (the "Commission"), Duquesne Light Company ("DLC"), holder of Operating License No. DPR-66, hereby requests that the Technical Specifications set forth in Appendix A to that license be amended to revise the air lock surveillance requirements to reflect the addition of the emergency air lock.

The proposed technical specification change is set forth in Attachment A to this Application. A safety evaluation is set forth in Attachment B. The proposed change has been determined to involve no significant hazards consideration in accordance with 10 CFR 50.92. We have determined that this change is described by the following example provided by the Commission and published in the Federal Register 48 FR 14864:

- (ii) a change that constitutes an additional limitation, restriction, or control not presently included in the technical specifications.

WHEREFORE, Applicant respectfully requests that Appendix A to Operating License No. DPR-66 be amended in the form attached hereto as Attachment A.
