Dear Jane:

Enclosed are copies of "quality assurance submittals to the NRC" dated February 2 and March 16, 1984. These documents were identified by you in your April 30 letter and in paragraph 9 of Intervenor's First Request to Edison For Production of Documents dated May 9, 1984. These documents involve organizational changes in the Quality Assurance Department which were the subject of a Board notification dated April 9, 1984.

The provision of these documents to you does not constitute any concession on the part of Commonwealth Edison Company that the changes in the quality assurance program described in these documents are within the scope of any issue pending before the Licensing Board.

Yours very truly,

Michael I. Miller
