Docket No. 50-277

Mr. Darrell G. Eisenhut
Division of Licensing
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Eisenhut:

Our letter of May 23, 1983, transmitted to you information relative to the continued operation of Peach Bottom Unit 2. In Attachment IV to that letter, it was stated under the answer to Question 6 that "Additional information relative to this question has been provided directly to the NRC staff and will be submitted formally as soon as the hard copy is available".

Enclosed herein is a report prepared by S. Ranganath of General Electric which fulfills that commitment.

Sincerely,

cc: A. R. Blough
Site Inspector
