Operating Reactors Branch No. 2  
Division of Licensing  
United States Nuclear Regulatory Commission  
Washington, DC 20555

BRUNSWICK STEAM ELECTRIC PLANT, UNIT NOS. 1 AND 2  
DOCKET NOS. 50-325 & 50-324/LICENSE NOS. DPR-71 & DPR-62  
REQUEST FOR LICENSE AMENDMENT  
CORRECTIONS TO TECHNICAL SPECIFICATIONS

Dear Mr. Vassallo:

#### SUMMARY

In accordance with the Code of Federal Regulations, Title 10, Parts 50.90 and 2.101, Carolina Power & Light Company (CP&L) hereby requests a revision to the Technical Specifications (TS) for the Brunswick Steam Electric Plant (BSEP), Unit Nos. 1 and 2. The proposed revision makes administrative changes correcting typographical errors in TS 4.6.6.1.c, TS 4.1.3.7.1.b, and Table 3.3.4-2.

#### DISCUSSION

This revision corrects three typographical errors. TS 4.6.6.1.c is revised to refer to Regulatory Guide 1.52, instead of Regulatory Guide 1.53, in relation to obtaining carbon samples from the Standby Gas Treatment System charcoal absorbers. TS 4.1.3.7.1.b is corrected to refer to TS 4.1.3.1.2 for surveillance requirements, not TS 4.1.3.1. The table number reference of Table 3.3.4-2 (page 3/4 3-42) is changed from the incorrect table number of 3.3.4-1 (applies only to Brunswick-1 TS). Various administrative changes are also made in TS 3/4.6.6 to make it more closely conform to the GE/BWR-4 Standard Technical Specifications.

#### SIGNIFICANT HAZARDS ANALYSIS

The Commission has provided guidance concerning the application of its standards set forth in 10 CFR 50.92 for no significant hazards considerations by providing certain examples published in the Federal Register on April 6, 1983 (48 FR 14864). One of the examples of an amendment likely to involve no significant hazards consideration relates to a change (i) which is purely administrative in nature; for example, a correction of an error, or a change in nomenclature. Since the proposed revision involves only correction of typographical errors and changes in nomenclature, CP&L has determined that it falls under the criteria of example (i) and as such involves no significant hazards consideration.

ADMINISTRATIVE INFORMATION

The proposed Brunswick-1 and Brunswick-2 TS pages are provided in Enclosure 1 and Enclosure 2 respectively. Carolina Power & Light Company has evaluated this request in accordance with the provisions of 10 CFR 170.22 and has determined that a Class II and a Class I license amendment fee are required. A check for \$1,600.00 is enclosed in payment of these fees.

Should you have any questions concerning this submittal, please contact our Licensing Staff.

Yours very truly,

A. B. Cutter - Vice President  
Nuclear Engineering & Licensing
