Gentlemen:

Millstone Nuclear Power Station, Unit No. 3  
Submittal of Revised Emergency Plan

Northeast Nuclear Energy Company will submit the revised Emergency Plan for the Millstone Station reflecting the Millstone Unit 3 plan by June 30, 1984. It is important to recognize that a few elements of the submittal will be preliminary in nature owing to the evolution of plant procedures, e.g. the EAL table is being upgraded to incorporate more details. We will submit the final version of these few elements by January 1, 1985. These few preliminary elements will be identified in the June 30, 1984 submittal. We view this commitment to be sufficient to make the Draft SER open item No. 172 contained in Section 13.3 a confirmatory item rather than an open item.

Very truly yours,

NORTHEAST NUCLEAR ENERGY COMPANY
