Docket 50-293

Dear Mr. Hodges:

This letter responds to an NRC request that Boston Edison Company (BEC0) provide a docketed date for submitting to the NRC an analysis for Pilgrim's reactor vessel being prepared for BEC0 by an external engineering services vendor. This request was made by a May 11, 1994 phone call between you and Mr. W. C. Rothert (BEC0).

BEC0 plans to submit this evaluation on or before October 31, 1994. This date allows for BEC0's internal engineering review and acceptance of the contractor's analysis report.
