April 30, 1970

Dr. Peter A. Morris
Division of Reactor Licensing
United States Atomic Energy Commission
Washington, D. C. 20545

Dear Dr. Morris:

Re: Docket No. 50-220

Submitted herewith is a document entitled "Reactor Primary System Investigation at Nine Mile Point Nuclear Station" dated May 1, 1970.

This document brings the results of the current investigation on the reactor primary system at Nine Mile Point up to date. This report supersedes and replaces the "Preliminary Report Core Spray Nozzle Safe End Nine Mile Point Power Station" dated March 27, 1970 and submitted by my letter of transmittal of April 3, 1970.

Very truly yours,

M. H. Pratt

Vice President and Executive Engineer
