Dear Dr. Morris:

Re: Docket No. 50-220

Submitted herewith is a ^{*}document entitled "Preliminary Report, Core Spray Nozzle Safe End, Nine Mile Point Power Station, NEIM-10159, March 27, 1970". This document is preliminary in nature as a progress report, only. The investigation is continuing and no definitive conclusions of any kind can be drawn from the material in this report. A final report will be submitted later which will supercede and replace this report and at that time conclusions may then be drawn.

Very truly yours,

M. H. Pratt
Vice President and
