Attention: Document Control Desk

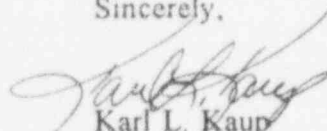

Subject: Byron Nuclear Station Units 1 & 2
Braidwood Nuclear Station Units 1 & 2
Notification of Intent to Adopt The Improved Standard
Technical Specifications
NRC Docket Nos. 40-454, 50-455, 50-456 and 50-457

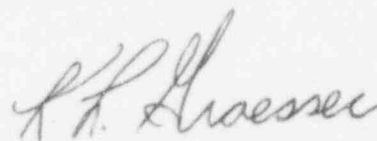

The purpose of this correspondence is to provide notification of the intent to pursue a conversion of the Byron and Braidwood Technical Specifications to the Improved Standard Technical Specifications. The conversion will be pursued concurrently and will be based on Revision 1 of NUREG 1431.

The current schedule for the conversion has a projected submittal date for the amendment package in June of 1996. Notification will be provided in the event of any schedular adjustments.

Please direct any questions regarding this matter to T. Simpkin at (708) 663-7279.

Sincerely,

Karl L. Kaup
Site Vice President
Braidwood Nuclear Station

Kenneth L. Graesser
Site Vice President
Byron Nuclear Station
