Dear Mr. Lieberman

In conversation with your office today I was advised that they had, in fact, received my correspondence of May 3, 1995.

It has now been one week since I forwarded said correspondence to your attention. To date, I have not received any response. Why have I yet to receive a response? If, as your assistant has advised me today, there are others within the NRC to which you have directed my correspondence for response, please provide me their names, positions and mailing addresses so that this matter can be properly documented.

Your prompt attention and response will be greatly appreciated.

Very truly yours,

FIBICH & GARTH, P.C.
