Gentlemen:

VIRGINIA ELECTRIC AND POWER COMPANY
NORTH ANNA POWER STATION UNIT 1
SECOND TEN-YEAR INTERVAL INSERVICE INSPECTION PROGRAM
REVISION 5

North Anna Unit 1 is presently in the second period of the second ten-year interval. North Anna Unit 1 examinations have been conducted to the requirements of the 1983 Edition and Summer 1983 Addenda of ASME Section XI.

The Virginia Power Inservice Inspection (ISI) Manual requires that changes to the ISI Program be submitted to the appropriate regulatory agency. Revision 5 to the ISI Program is hereby submitted (Attachment 2) as required by 10 CFR 50.55a(g). A summary of the changes is attached (Attachment 1).

The associated revision (Revision 6) to the ISI Program Plan for components and component supports is also provided for your information (Attachment 3). The ISI Program Plan reports the examinations performed and scheduled for the second ten-year interval.

Revision 5 to the ISI Program has been approved by the North Anna Station Nuclear Safety and Operating Committee.

If you have any questions concerning this request, please contact us.

Very truly yours,

RJ Saunders for

James P. O'Hanlon
Senior Vice President - Nuclear
