Reactor Operator License Termination

File No.: G9.5, G1.41.50

Gentlemen:

Pursuant 10CFR 50.74, Entergy Operation, Inc. hereby submits notification of termination of the below reactor operator license.

Name: Mr. Wesley C. Lee
License Type: Reactor Operator
License No.: OP-42389
Document No.: 55-40561
Reason: Educational Leave of Absence

Mr. Lee was granted an Educational Leave of Absence August 15, 1994 and was declared an inactive employee of Entergy Operations, Inc. Based on this leave of absence, and his possible return to the River Bend Station as a Licensed Operator following completion of the educational leave, an initial 10CFR50.74 notification was determined not applicable at the time and was therefore not made.

Mr. Lee has not been performing license duties since that time and has not been actively participating in a requalification program. Subsequent review has determined it is no longer necessary to maintain his Reactor Operator License.
