Re: 10CFR50.90

U.S. Nuclear Regulatory Commission  
Attention: Document Control Desk  
Washington, DC 20555

Millstone Nuclear Power Station, Unit No. 3  
Correction to License Amendment

The purpose of this letter is to notify the NRC Staff of an administrative error contained in Millstone Unit No. 3 Technical Specification 3.6.1.3, "Containment Air Locks," and to request that a correction be made. The administrative error involves the failure of Amendment No. 59 to consider the changes approved by Amendment No. 57. Amendment No. 59 was approved by the NRC on January 25, 1991,<sup>(1)</sup> and was based on NNECO's request of February 26, 1990. Amendment No. 57 was approved by the NRC Staff on October 25, 1990,<sup>(2)</sup> and was based on NNECO's request of July 17, 1990.

The changes to Technical Specification 3.6.1.3, "Containment Air Locks," made by Amendment Nos. 57 and 59 were made in close proximity to each other, and when formally approved did not properly integrate the two amendments.

Attachment No. 1 to this letter contains the approved technical specification page for Amendment No. 57 and Amendment No. 59. Attachment No. 2 to this letter contains Technical Specification 3.6.1.3, with the approved changes made by Amendment Nos. 57 and 59 integrated into one document. The proposed changes have been and continue to be supported by the previously-performed significant hazards consideration and environmental impact statement. In addition, the NRC Staff has posted these changes in the Federal Register and has approved these changes in support of Amendment Nos. 57 and 59. Therefore, NNECO believes that further activities are not needed.

As a self assessment initiative, NNECO has also reviewed the entire Millstone Unit No. 3 Technical Specifications and has not identified any additional errors of this type.

Please issue a correction to Technical Specification 3.6.1.3 at your earliest convenience. If you should have any questions on the above or attached, please contact Mr. R. G. Joshi at (203) 440-2080.

Very truly yours,

NORTHEAST NUCLEAR ENERGY COMPANY
