Subject: Errata for Distribution to Holders of the Fermi 2 Updated Final Safety Analysis Report (UFSAR), Revision 7

Enclosed are one original and 10 copies of revised instructions and UFSAR replacement and additional pages for Revision 7.

During processing at the printer, several errors were discovered on Revision 7 pages that are being corrected by the enclosed information. The errors were relatively minor in nature such as revision bars in the wrong margin, a table title that was not revised to agree with the current operating cycle, a revised page overlooked when assembling the printers package, etc. The enclosure includes an explanatory cover page, a set of revised UFSAR Revision 7 instructions, and replacement pages. We apologize for any inconvenience these errors may have caused.

In addition, one copy is being sent to Region III, and one copy to the onsite NRC inspector.
