ATTENTION: Document Control Desk  
Washington, D.C. 20555

SUBJECT: Catawba Nuclear Station  
Docket Nos: 50-413, -414

In followup to my letter of October 1, 1991, Mike Tuckman will assume overall responsibilities for the Catawba Nuclear Site, effective November 1, 1991. Please revise the current addresses and distribution of NRC correspondence as noted in the attachment. For the Staff's convenience, I have marked the current service lists to indicate the necessary changes.

Day-to-day communications for ongoing regulatory items between the NRC Project Manager and my staff licensing engineer should continue as it is currently practiced. The NRC staff will be notified when we are ready to transfer this responsibility to the site.

Very truly yours,

A handwritten signature in cursive script, appearing to read 'Hal B. Tucker'.

H. B. Tucker

License Nos. NPF-35, NPF-52

Duke Power Company  
ATTN: Mr. M. S. Tuckman, Vice President  
Nuclear Operations  
P. O. Box 1067  
Charlotte, NC 28201-1007

Gentlemen:

SUBJECT: REPORT NOS. 50-413/90-201 AND 50-414/90-201

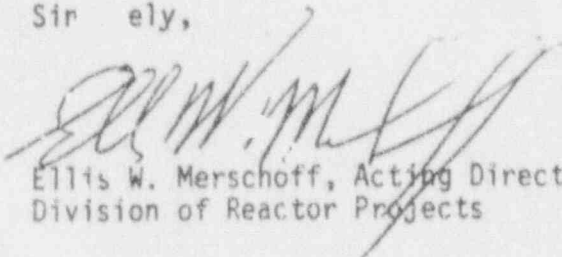

Thank you for your response of August 22, 1991, to our Notice of Violation (A through C and E through I) issued on June 24, 1991, concerning activities conducted at your Catawba facility. We have evaluated your response and find that it meets the requirements of 10 CFR 2.201. We will examine the implementation of your corrective actions during future inspections.

We have re-evaluated Violation D included in our Notice and agree that this violation was previously addressed in your response dated February 27, 1991, to our Notice of Violation issued on January 29, 1991, (NRC Inspection Report Nos. 50-413/90-32 and 50-414/90-32). Since the corrective actions for this violation were in process and the date of full compliance was not scheduled to be completed until December 1, 1991, this violation has been withdrawn and our records have been modified to reflect this position.

We have also evaluated your response to Unresolved Item 90-201-08 involving on-line leak repairing of components. We will examine the implementation of your corrective actions during future inspections.

We appreciate your cooperation in this matter.

Sincerely,

  
Ellis W. Merschoff, Acting Director  
Division of Reactor Projects
