Washington, D.C. 20555

Re: Docket No. 50-275, OL-DPR-80
Docket No. 50-323, OL-DPR-82
Diablo Canyon Units 1 and 2
Request for Exemption to 10 CFR 73

Gentlemen:

PG&E letter DCL 95-092, dated May 5, 1995, requested an exemption to 10 CFR 73.55(d)(5), and provided a draft of proposed changes to the Diablo Canyon Power Plant - Plant Security Program (PSP).

Enclosure 1 to this letter contains security safeguards information in the form of a change to the proposed draft PSP. This draft proposes a revision be submitted to clarify issues related to the hand geometry system. The enclosure is a total rewrite of the previous draft; therefore, there is no annotation of the changes between the drafts. Subsequent to approval of the requested exemption described in Enclosure 1 of

DCL 95-092, PG&E will submit a formal request for changes to the PSP in accordance with 10 CFR 50.54(p).

The hand geometry system is scheduled for implementation on or about September 22, 1995. PG&E requests approval of this exemption prior to September 22, 1995.

Should you require further information or clarification, please contact Ron Todaro, Security Director, at (805) 545-4309.

Sincerely,

Gregory M. Rueger
