Response to IE Bulletin No. 83-07
Apparently Fraudulent Products Sold by Ray Miller, Inc.

Dear Sir:

The subject bulletin transmitted information concerning fraudulent products that may have been sold to nuclear industry companies by Ray Miller, Inc. Specifically, the bulletin required licensees to determine whether suspect material has been installed in plants, evaluate its safety significance, and take appropriate corrective actions.

Boston Edison Company has completed a review of the information supplied by IE Bulletin No. 83-07. The results of the review indicate that Ray Miller, Inc. suspect material has not been supplied to or used at Pilgrim Station. Therefore, the remainder of the bulletin requirements described in Items 1 through 3 are not applicable and no further actions are required.

Should you require any additional information, please contact us.

Very truly yours,

W.D. Harrington

Commonwealth of Massachusetts)
County of Suffolk)

Then personally appeared before me W. D. Harrington, who, being duly sworn, did state that he is Senior Vice President - Nuclear of the Boston Edison Company, the applicant herein, and that he is duly authorized to execute and file the submittal contained herein in the name and on behalf of the Boston Edison Company and that the statements in said submittal are true to the best of his knowledge and belief.

My Commission expires: *October 21, 1988*
