INDIVIDUAL PLANT EXAMINATION FOR EXTERNAL EVENTS (IPEEE)
FOR BRUNSWICK UNITS 1 AND 2

Gentlemen:

The purpose of this letter is to revise the June 30, 1995 submittal of the results of the Individual Plant Examination for External Events (IPEEE) for Carolina Power and Light Company's (CP&L) Brunswick Steam Electric Plant (BSEP) Units 1 and 2. Please replace the appropriate page in Appendix A of that report with the replacement page included as Enclosure 1. The reason for this change is that the current page identifies the document in Appendix A as a proprietary document. The document is not classified as proprietary by EQE International (the document preparer); therefore, a substitute page which removes the proprietary notice for the document is being provided.

Please refer any questions regarding this submittal to Mr. George Honma at (910) 457-2741.

Sincerely,

G. D. Hicks
