Cecil O. Thomas Chief
Standardization & Special Projects Branch
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr. Thomas:

On May 23, 1980 Union Carbide Corporation filed a timely application for renewal of Operating License R-81, Docket 50-54. This application for renewal included several minor changes to the Technical Specifications. We wish to have one additional minor change added as identified in Exhibit I attached.

Since this is part of the licensing renewal application, which was accompanied with the appropriate fee pursuant to 10 CFR 170.23, we do not believe an additional licensing fee to be required.

Please feel free to call if there are questions on this request.

Sincerely,

W.G. Ruzicka

William G. Ruzicka
