Re: Nine Mile Point Unit 2  
Docket No. 50-410  
NPF-69

Gentlemen:

The purpose of this letter is to withdraw the request for a temporary waiver of compliance from Nine Mile Point Unit 2 Technical Specification Limiting Condition for Operation (LCO) 3.3.7.5, ACTION 80a, transmitted earlier today via facsimile.

The problems encountered subsequent to the January 2, 1992 initiation of the Division 2 H<sub>2</sub>/O<sub>2</sub> monitor quarterly surveillance test have been satisfactorily resolved and the monitor was returned to service (declared operable) at 1238 hours today, January 9, 1992, within the 7 day allowable outage time window of Technical Specification 3.3.7.5, ACTION 80a.

Although the above information obviates the need for any formal action on your part, we do sincerely appreciate the timely assistance you were prepared to provide.

If you have any further questions regarding this matter, please feel free to contact my office.

Very truly yours,

  
B. Ralph Sylvia  
Exec. Vice President-Nuclear
