Re: McGuire Nuclear Station Unit 2
Docket No. 50-370
Startup Report

Dear Mr. O'Reilly:

Pursuant to Technical Specifications 6.9.1.1, 6.9.1.2, and 6.9.1.3, attached are 2 copies of the Startup Report for McGuire Nuclear Station-Unit 2. This report was prepared in accordance with the requirements of Technical Specification 6.9.1 and addresses the results of startup testing from initial fuel loading through testing at the 90% full power level. At this time, testing at the 100% power level has not been started. Accordingly, pursuant to T.S. 6.9.1.3, supplementary reports will be submitted at least every 3 months until completion of all power escalation testing and commencement of commercial operation. The first supplemental report keeping you apprised of the progress of this testing will be filed by May 8, 1984.

Please advise if there are any questions concerning this report.

Very truly yours,

H.B. Tucker
