U. S. Nuclear Regulatory Commission  
ATTN: Document Control Desk  
Washington, D.C. 20555

Requested Amendment to NPF-82 to Permit  
Implementation of Shoreham Decommissioning Plan  
Shoreham Nuclear Power Station - Unit 1  
Docket No. 50-322

Reference: (1) LSNRC-1883 dated January 13, 1992 to the U.S.  
Nuclear Regulatory Commission from L. Hill;  
subject: Application for an Amendment to  
Facility Operating License NPF-82

Gentlemen:

The Long Island Power Authority (LIPA) has proposed an amendment (reference 1) to the Shoreham Nuclear Power Station Possession Only License, NPF-82 requesting that the NRC authorize LIPA to implement the Shoreham Decommissioning Plan. This request would take effect only after the NRC has consented to the pending joint request of Long Island Lighting Company (LILCO) and LIPA to transfer NPF-82 from LILCO to LIPA.

In connection with the above, LILCO, the present licensee, concurs in LIPA's request, including the request for expeditious Staff review, and urges that:

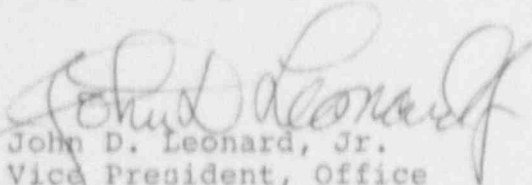

- (1) the NRC review the requested amendment in the Shoreham docket, No. 50-322; and that
- (2) the requested amendment be made effective as soon as possible after the Commission has consented to the transfer of NPF-82 from LILCO to LIPA.
