NRC, 2

FROM:

SUE J. SMITH *SJS*
DIRECTOR, OFFICE OF AGENCY LIAISON

SUBJECT:

REFERRAL OF CASEWORK IN BULK

An unprecedented number of individuals still write the President and the First Lady for help. I know that this has meant a far greater volume of mail for your agency than ever before. I appreciate your continuing cooperation in our efforts to be as responsive as possible.

The attached letters have not received a White House Staff response. I am forwarding this correspondence to your agency for any appropriate action.

Please return the original incoming letter, along with a copy of any written or telephone response, to me at the address below. I also would appreciate your sending a copy of your agency's log of the names and addresses of these individuals. Any misreferrals should be returned to my office. If you have questions you can reach me at 456-7486.

Subject: GEORGIA TECH. NUCLEAR REACTOR

As a native Atlantan and a Georgia Tech. graduate, I am concerned about the danger for the safety of everyone posed by the Neely Nuclear Reactor located on the Georgia Tech campus within 1/4 mile of the 1996 Olympic Village. The reactor is old, poorly protected, and has a history of leaks and regulatory violations.

When the Olympics were held in Los Angeles 10 years ago, the University of California considered the possibility of terrorism and elected to shut down the UCLA reactor and removed radioactive material from the area. Although terrorism is now a much greater threat, the Atlanta Olympic Committee and the University have chosen to ignore the problem.

We are therefore asking you, President Clinton, to issue an executive order to close the Georgia Tech Neely Reactor and remove all nuclear material from the city. This action seems imperative for the safety of all the people converging on Atlanta especially at the time of the 1996 Olympics; and for Atlantans at all times.
