PQCI LIST
FILE 24.2 SERIAL 28908

On January 11, 1984 in a discussion between our D F Ronk and your Walter Sienkiewicz, Stone and Webster requested a list of PQCIs expected to be used in Quality Verification & Status Assessment of Module 340. Such a list was provided on January 12, 1984 (CSC-7160).

Since that list was provided our plans to start QVP & SA have changed to include Turbine Roll Systems, Module 800 and scoped areas 120D and 102B in addition to scoped areas 340J and the remainder of Module 340.

Please be advised that we anticipate using or verifying the following PQCIs in these new areas in addition to PQCIs identified in our January 12, 1984 letter:

C-1.21	C-4.10	M-4.00	P-2.00
C-1.22	C-5.10	M-7.10	E-6.0
C-1.30	C-2.17	P-1.40	E-5.0
C-1.51	C-2.20	PF-1.10	I-1.10
C-1.60	M-1.00	PI-2.90	

If you have any questions regarding this matter, please contact D F Ronk at Extension 7155.
