SUBJECT: Limerick Generating Station, Units 1 and 2  
Technical Specifications Amendments Nos. 96 and 60  
Technical Specifications Page Corrections

Gentlemen:

By letter dated July 18, 1995, the NRC issued Amendment Nos. 96 and 60 to the Limerick Generating Station (LGS), Unit 1 and Unit 2, Technical Specifications (TS), respectively. The TS changes were requested by PECO Energy by application dated November 21, 1994, "Changes Affecting TS Administrative Section 6.0," and supplemented by letters dated April 6, and July 3, 1995.

As originally submitted, TS Section 6.2.4 "Shift Technical Advisor", and TS Section 6.3 "Unit Staff Qualifications" were inadvertently removed from TS page 6-6 for both Units. Also, Unit 1 TS page 6-7, Section 6.5.1.1 was submitted with a spelling error involving the word 'PORC'.

Attachment 1 to this letter contains the corrected Unit 1 and Unit 2 TS pages. It is requested that the effective TS pages be re-issued under Amendment Nos. 96 and 60. This information is being submitted under affirmation, and the required affidavit is enclosed.

If you have any questions, please do not hesitate to contact us.

Very truly yours,

G. A. Hunger, Jr.,  
Director - Licensing
