Reference: Docket No. 50-285

Dear Mr. Denise:

Inspection Report 83-30; Open
Item 8330-01; Emergency Preparedness
Decontamination Facility

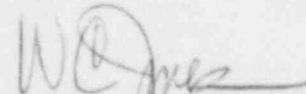

In a telephone conversation on January 23, 1984 between Mr. J. L. Montgomery of the Region IV staff and Mr. F. F. Franco and Mr. J. J. Fisicaro of the Omaha Public Power District, it was requested that the District provide a written response as to the corrective actions that would be taken to resolve the subject open item.

The District has evaluated the adequacy of the emergency preparedness decontamination facility located in the General Employee Training Building at the Fort Calhoun Station and has determined that the facility should be upgraded. Therefore, Engineering Evaluation/Assistance Request FC-84-08 was initiated on January 16, 1984 to upgrade the decontamination
