U.S. Nuclear Regulatory Commission  
Attention: Document Control Desk  
Washington, DC 20555

Gentlemen:

Subject: Hope Creek Generating Station  
Docket No. 50-354  
Amendment to Facility Operating License  
License Change Request 94-25

The subject request was submitted to the NRC by PSE&G letter dated January 11, 1995. The proposed change removes Section 3/4.3.8 "Turbine Overspeed Protection System" from the Hope Creek Technical Specifications and relocates the Bases to the Hope Creek Updated Final Safety Analysis Report (UFSAR) and the Surveillance Requirements to the applicable surveillance procedures. The Limiting Conditions for Operation (LCOs) will be eliminated.

The New Jersey Department of Environmental Protection's Bureau of Nuclear Engineering (BNE) has reviewed the request in accordance with the requirements of 10 CFR 50.91(b) and has no comments.

If you have any questions, please contact Tom Kolesnik at (609) 987-2053 or Rich Pinney at (609) 987-2086.

Sincerely,

*Kent Tosch / BTJ*
