Dear Nick:

Subject: In the Matter of  
Texas Utilities Generating Company, et al.  
(Comanche Peak Steam Electric Station,  
Units 1 and 2)

Supplementation of Responses to  
Interrogatories and Requests to  
Produce from Applicants to CASE

Regarding the discussion yesterday about supplementation of answers to interrogatories and requests to produce between the Board Chairman and the parties, you indicated that there were answers from CASE which should be supplemented. As I stated at that time, it is my recollection that I had discussed this previously with Mr. Horin, and it had not been my understanding that there was anything which Applicants thought CASE should supplement (or that the Staff thought we should supplement, for that matter).

If there are such items which you believe we should supplement, please identify them.

Thanks.

Sincerely,

CASE (Citizens Association for Sound Energy)
