Dear Sir:

Subject: Docket Nos. 50-361/50-362
Monthly Operating Reports for February 1984
San Onofre Nuclear Generating Station, Units 2 and 3

Enclosed are the Monthly Operating Reports as required by Section 6.9.1.10 of Appendix A, Technical Specifications to Facility Operating Licenses NPF-10 and NPF-15 for San Onofre Nuclear Generating Station, Units 2 and 3, respectively. Included for Unit 2 are operating status sheets, average daily power levels, and unit shutdowns and power reductions for the months from the beginning of commercial operation (August 8, 1983) through January 1984, which have been revised to reflect values rezeroed from the beginning of commercial operation, in accordance with NUREG-0020. Also enclosed is a revised Unit 3 Average Daily Unit Power Levels for January since last month's submittal contained gross values rather than net values.

Please contact us if we can be of further assistance.

Sincerely,

Enclosures
