27	03/14/95-0651	03/14/95-0847	Improper issuance of a key card which allowed access to the Protected Area (PA) by an authorized person. (Personnel Error)	0651 Individual requested KC #1647 and was inadvertently issued KC #1627. Individual processed at the entry turnstile and entered the PA. At 0728, the individual was located and escorted from the PA. Investigation revealed that a person had processed earlier and did not enter the PA which left the turnstile in an accessed mode. The individual with KC #1627 assumed he had properly processed because the turnstile allowed him to enter the PA. The investigation further revealed that there was no malevolent intent as both parties had unescorted access and the same status level. Corrective Action: Security personnel have been retrained and entry turnstiles are being modified to preclude recurrence.	PA	Observed
