Dear Mr. Denton:

SUBJECT: Grand Gulf Nuclear Station
Units 1 and 2
Docket Nos. 50-416 and 50-417
License No. NPF-13
File 0260/L-860.0
GGNS Technical Specification
Review Program
AECM-84/0183

Your letter to Mississippi Power & Light (MP&L) Company, dated February 24, 1984, requested MP&L to perform a review of the Grand Gulf Nuclear Station (GGNS) Technical Specifications and certify that they accurately reflect the plant, the FSAR, and the SER analyses. An interim response was submitted to your office on March 8, 1984 (MP&L letter serial AECM-84/0154) to advise you that MP&L has undertaken a detailed review of the GGNS Technical Specifications to confirm their accuracy and adequacy for safe operation of Grand Gulf No. 1. MP&L met with your staff on March 9, 1984, to present the proposed review program and to elicit your cooperation and support in this effort.

This submittal represents the formal documentation and description of the GGNS Technical Specification Review Program presented to your staff in the March 9, 1984 meeting. The program, as described herein, is considered to be fully responsive to recent Nuclear Regulatory Commission questions/concerns surrounding the Grand Gulf Technical Specifications. The program is estimated to require a total of five weeks to complete, is presently on schedule and is estimated to end on April 6, 1984. It is MP&L's intention to formally respond to your February 24, 1984 letter no later than April 9, 1984.
