Director of Nuclear Reactor Regulation  
Attention: Mr. B. J. Youngblood, Chief  
Licensing Branch No. 1  
Division of Licensing  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Mr. Youngblood:

Reference: Fermi-2  
NRC Docket No. 50-341

Subject: Submittal of Report on Environmental  
Qualification of Safety Related  
Mechanical Equipment

As agreed at a meeting with your staff on December 1, 1983, submitted herewith is the Detroit Edison report "Environmental Qualification of Safety Related Mechanical Equipment for Harsh Environment". The format and content of the report is based on what was recommended by Mr. Masciantonio of your Equipment Qualification Branch at the December meeting. It should be noted there was no need to include any justifications for interim operation in the report. As also was discussed at the December meeting, Detroit Edison may expect to hear from Mr. Masciantonio approximately two weeks after his receipt of the report to discuss submittal of a few complete mechanical equipment qualification packages for him to audit.

Should you have any questions, please contact Mr. O. Keener Earle, (313) 586-4211.

Sincerely,
