Operating Reactors Branch #3
Division of Licensing

Dear Dave,

Recently, Lloyd Wenger contacted you by telephone to inform you that we were forwarding a list of local news media available for public broadcasting/notification. The references we are providing serve local areas surrounding the plant site and have expressed an interest in providing their services if requested. This list is being provided in the event a situation were to develop where it may be advantageous to use the local media in lieu of the Federal Register for exigent or emergency license amendments.

We hope this information will be of common value to you and us. Thank you for your attention on this matter.

Yours very truly,

Principal Engineer -
Operational Licensing & Safety Unit
