Subject: Docket No. 50-361
Owner's Report of Inservice Inspection, Form NIS-1
San Onofre Nuclear Generating Station, Unit 2

Reference: American Society of Mechanical Engineers (ASME)
Boiler and Pressure Vessel Code, Section XI:
1977 Edition with Addenda through Summer 1979 for the
first inspection interval,
1989 Edition, no Addenda for the second inspection interval

The purpose of this letter is to submit a copy of the Inservice Inspection (ISI) Summary Report, including the Owner's Reports of Repairs and Replacements for the San Onofre Nuclear Generating Station, Unit 2. This report is submitted to meet the requirements of Paragraph IWA-6230 of the above reference, and covers the inservice examination of Class 1 and Class 2 pressure retaining components and their support.

This report covers the period from August 9, 1993, through May 23, 1995, the date of the unit's return to service following the cycle 8 refueling outage. During this period, Edison completed the first 10 year ISI interval on March 31, 1994. If you require any further information, please so advise.

Sincerely,

Enclosures
