Dear Sir:

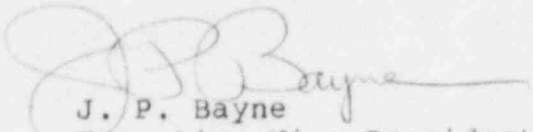

The Authority submitted a proposed change to the James A. FitzPatrick Nuclear Power Plant Technical Specifications via Reference 1. This proposed amendment revises Table 3.7-1 (Process Pipeline Penetrating Primary Containment) of Appendix A to the Operating License to agree with the actual plant conditions. In Reference 2, the NRC requested additional information on this proposed amendment.

Since the changes requested in Reference 1 would be resubmitted as part of a complete update of Table 3.7-1, the Authority hereby withdraws the "Application of Amendment to Operating License" included with Reference 1. This new submittal will be transmitted to the NRC by June 29, 1984.
