March 13, 1984

Mr. William J. Dircks
Executive Director for Operations
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Dircks:

Subject: SUPPLY SYSTEM NUCLEAR PROJECTS 4 AND 5
TRANSITION TO PHASE II OF TERMINATION

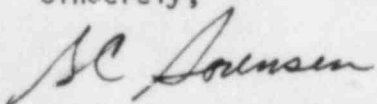

Reference: Letter, R. L. Ferguson to W. J. Dircks, "Termination of
Supply System Nuclear Projects 4 and 5 (WNP-4 and
WNP-5)," February 1, 1982.

The referenced correspondence discussed the Supply System's Termination Program to dispose of the assets of WNP-4/5. Phase I of the Program was to concentrate on finding new owners for the projects. If the search for new owners proved to be unsuccessful, the Supply System was to move to Phase II, which would focus on the sale of plant assets in a piecemeal fashion.

This letter is to inform you that the Supply System is now in Phase II of the Termination Program for WNP-4/5. It is our intent that Phase II will last until at least June, 1985.

If you have any questions, please do not hesitate to call me at (509) 372-5238.

Sincerely,

G. C. Sorensen, Manager
Regulatory Programs
