Docket Nos. 50-277
50-278

Mr. S. Pandey
Franklin Research Center
20th & The Parkway
Philadelphia, PA 19103

SUBJECT: Peach Bottom Atomic Power Station
Off-Site Dose Calculation Manual (ODCM)

Dear Mr. Pandey:

On September 29, 1983, we received direction from Mr. Gerald R. Gears, USNRC, to resolve Franklin Research comments on the Peach Bottom ODCM directly with you.

The ODCM has been revised to incorporate several changes requested by the NRC in the license amendment regarding radiological effluent technical specifications.

Attached is a revised copy of the Peach Bottom ODCM for your review. Following your review, the resolution of further comments can best be handled by way of a conference call between yourself and Philadelphia Electric Company staff. In order to expedite final resolution of the ODCM, please contact Bill Birely, Senior Engineer, Licensing, at (215) 841-5048 to arrange for such a conference call.

If you have further questions or comments, please do not hesitate to contact us.

Very truly yours,

W. T. Ullrich
Superintendent
